“ Amazing autism consultant Keith was. Although we only met him a few times, we were truly educated by him how to better help our son in his life long autism journey. He made a wonderful impression on us. I must say Keith was very wise and knew things others didn't and had no judgement or preconceived opinion of our son or us. So very down to earth and came up with a plan.. Once our son was able to find a kindergarten class that would accept him, Keith felt his role was over. I look back and feel of all our consultants, he was right on top of the list. May he RIP and so sorry to his family and friends. Truly amazing and we are very thankful to have met this great genius compassionate kind man. Job well done but gone too soon. Thank you again.

“ I was looking at an old video of Keith working with my son, who was diagnosed on the autistic spectrum, when he was 6 years old. Keith was so wonderful with him and really helped to plug him into the world. My son is now 32 years old and getting his doctorate. I am so very grateful to Keith for helping to give him such a great start in life and am so sad to learn that he has passed away. My son and I send our heartfelt sympathy to your whole family.

“ Keith had an amazing talent working with children with autism. I have fond memories of him picking up our son Alex and lifting him in the air..both laughing. When we felt stuck and discouraged as parents by one of Alex's behaviors , Keith was always the man with a plan. Thank you Keith for everything you did for our son. And for us. Heidi Lee

“ Our deepest sympathy on the passing of Coach Kieth. Our son played for Coach as a 3rd & 4th grader for BBIQ. His passion for the game but more importantly his teaching of the game will endure forever with all the players he ever coached.

Thank you Coach Keith for sharing your time with my son ... you made a lasting impression on him that he will never forget.

Rest In Peace Coach Keith

“ I have worked with Keith since September in New Rochelle. From the moment he stepped into my classroom my students were wide eyed and engaged. Throughout our discussions we had collaborated with one another he had excellent ideas, and a great sense of passion for what he did. He talked about helping out my basketball team at the middle school. He was always smiling, and knew how to reach each student. The students loved hearing his upbringing because they could relate. All the ideas/suggestions he has passed to me will not go to waste. He will be missed.

“ We are so sorry and heartbroken to hear about the passing of Keith Amerson. Keith was a dedicated basketball coach and mentor to many children, including our son.

We will never forget how passionate he was during games; he would often yell out (a child's name), while jumping up and down from the side lines to get the child's attention, giving him instructions, and critiquing his plays. It was very entertaining and endearing to watch. It was obvious that he meant well and truly wanted the boys to be their best selves. He was a supportive, caring and approachable coach. He was a mentor to our son on and off the court and he will be missed.

Please accept our heartfelt sympathies on the loss of your loved one.

Sincerely,
The Efobi Family

My deepest and sincerely heartfelt condolences to his family and to his children who are still and will always be his most cherished, which he exuded those sentiments, with spoken and unspoken words. Brilliant, hilariously funny, dedicated, beyond knowledgeable, reliable, energetic and dependable. My family had a bond with him for over 23 years that can never be broken. Whenever or wherever his children want to have a discussion about the professional man Keith was and a keen look at his personality from a family that engaged and valued him as a person, resource, champion, warrior and hero for children and families with children with disabilities in the Autism spectrum. Please reach out. It would be our honor to sit down with you and reminisce about your super special dad, who was touched by God with a gift to understand and speak the language of each unique child as an individual, regardless of their disability.
