

## Marguerite Woolf

May 21, 1946 - February 10, 2025

Marguerite Ippolito Woolf died peacefully with her family and friends at her bedside the morning of February 10th at the age of 78, after many health issues. She is survived by her daughter Alison Beam and husband Peter Beam, her son, Brian, her brother Frank and wife Anne, and nieces Laura, Kate, Annemarie, and great nephew Ivan, and great niece Ella.

Marguerite was born in London on May 21, 1946 where her parents met and married during WWII. They returned to the states when she was 4 months old arriving in Tarrytown, New York. At age 6 she traveled back to England to visit family and was present during Queen Elizabeth's Coronation.

Growing up in Tarrytown she flourished along with a brother in the midst of a large and robust Italian family that also included her English grandparents, Nanny and Poppa.

Upon graduating from high school she worked for Dr. Ippolito for many decades, while also working at Westchester Medical Center Nuclear Stress Lab for 30 years. She loved her jobs and was loved by all who worked with her.

She was incredibly strong, caring, and resilient becoming a widow with 2 young children in her late 30's after losing her beloved husband, Gene.

Besides raising her children that she was most proud of, she also cared for her grandparents and parents as they faced old age and illness.

After retirement she enjoyed Tarrytown Seniors, Church and was a member of The Altar Rosary Society. And last but not least loved going out with best friend Palma to register steps on Fitbit!

Blessed with humor, wit, optimism, and above all great children, son-in-law and friendships. Marguerite lived a truly exceptional life.

A Celebration of Life will be held at Dwyer and Michaels Funeral Home in Tarrytown, Friday, May 9th, 2025, from 10-12pm, with a luncheon to immediately follow. An inurnment will then take place at 1:30pm at Sleepy Hollow Cemetery.
